# Howard School District Wellness Policy

## Preamble

Howard School District (hereto referred to as the District) is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically. Finally, there is evidence that adequate hydration is associated with better cognitive performance.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. **Specifically, this policy establishes goals and procedures to ensure that:**

- Students in the District have **access to healthy foods throughout the school day** – both through reimbursable school meals and other foods available throughout the school campus– in accordance with Federal and state nutrition standards;
- Students receive quality **nutrition education** that helps them develop lifelong healthy eating behaviors;
- Students have **opportunities to be physically active** before, during and after school;
- Schools engage in **nutrition and physical activity promotion** and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and

This policy applies to all students, staff and schools in the District. Specific measureable goals and outcomes are identified within each section below.

## **I. School Wellness Committee**

### ***Committee Role and Membership***

The District will convene a representative district wellness committee (hereto referred to as the local wellness committee or work within an existing school health committee) periodically to

establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this district-level wellness policy (heretofore referred as “wellness policy”).

The local wellness committee membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: *parents and caregivers; students; representatives of the school nutrition program; physical education teachers; health education teachers; school health services staff school administrators, school board members; health professionals; and the general public.*

***Leadership***

The Superintendent or designee(s) will convene the local wellness committee and facilitate development of and updates to the wellness policy, and will ensure each school’s compliance with the policy.

**The designated official for oversight is Superintendent Marie Lohsandt 772-4443**

**Wellness Policy Committee**

**Email**

Misty Rudebusch, Health professional  
Kayla Miller, Health professional  
Lori Kollmann, Health Professional, parent  
Marcia Sherman, Food Service Authorized Representative  
Julie Schwader, School Board  
Kailee Schwader, Elementary Teacher  
Katie Brooks, Secondary Health & PE Teacher,  
Dr Marie Lohsandt, Superintendent

School Wellness Policy Coordinator, who will ensure compliance with the policy:

Howard Jr-Sr High School, Principal Travis Aslesen

Howard Elementary and Shannon Colony, Principal - Dr Marie Lohsandt

**Wellness Policy Implementation, Monitoring, Accountability and Community Engagement**

***Implementation Plan***

**The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy** It is recommended that the school use the [Healthy Schools Program online tools](#) to complete a school-level assessment based on the Centers for Disease Control and Prevention’s School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports/policy updates can be found at: [Howard.k12.sd.us](http://Howard.k12.sd.us).

### ***Recordkeeping***

The District will retain records to document compliance with the requirements of the wellness policy at the business office located at Howard Jr-Sr High School and/or on the Howard School's central computer network for three years past the current year. Documentation maintained in this location will include but will not be limited to:

- **The written wellness policy;**
- **Documentation demonstrating that the policy has been made available to the public;**
- **Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware annually of their ability to participate on the local wellness committee;**
- **Documentation to demonstrate compliance with the annual public notification requirements;**
- **The most recent assessment on the implementation of the local school wellness policy;**
- **Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.**

### ***Annual Notification of Policy***

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the district website and/or district-wide communications. The District will provide as much information as possible about the school nutrition environment

### ***Triennial Progress Assessments***

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy for all sites under district jurisdiction and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the local wellness policy;
- The extent to which the District's wellness policy compares to the State Model Wellness Policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.
  - Assessment will identify how the policy will be updated to add areas as needed, improve progress toward goals, etc.
  - Documentation of when and how the policy was evaluated will be maintained.

The position/person responsible for managing the triennial assessment and contact information is

Marcia Sherman, Business Manager 772-5515

The local wellness committee, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

### ***Revisions and Updating the Policy***

The local wellness committee will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment. Documentation of update will be maintained, such as attendance sheet, meeting minutes, etc.**

### ***Community Involvement, Outreach and Communications***

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of local wellness committee and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

## **II. Nutrition**

### ***School Meals***

Our school district is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; that are moderate in sodium, low in saturated fat, and have zero grams *trans* fat per serving (nutrition label or manufacturer's specification); and to meeting the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). All schools within the District are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;

- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet [USDA nutrition standards](#).)
- Promote healthy food and beverage choices, such as one or more of the following:
  - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal.
  - White milk is placed in front of other beverages in all coolers.
  - A reimbursable meal can be created in service area available to students (e.g., salad bars, etc.).
  - Student input is used to inform menu development
  - Student artwork is displayed in the service and/or dining areas.
  - Daily announcements are used to promote and market menu options.

### ***Staff Qualifications and Professional Development***

All school nutrition program directors, managers and staff will meet or exceed hiring and annual continuing education/training requirements in the [USDA professional standards for child nutrition professionals](#). These school nutrition personnel will refer to [USDA's Professional Standards for School Nutrition Standards website](#) to search for training that meets their learning needs.

### ***Water***

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day\* and throughout every school campus\* (“school campus” and “school day” are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes.

### ***Competitive Foods and Beverages***

The District is committed to ensuring that all foods and beverages available to students on the school campus\* during the school day\* support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias and vending machines..

### ***Fundraising***

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus\* during the school day.

### ***Nutrition Promotion***

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

### ***Nutrition Education***

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs and cafeteria nutrition promotion activities.
- Teachers will be equipped with age appropriate classroom information and curriculum to educate all students with information.

### ***Food and Beverage Marketing in Schools***

**District policy prohibits any contractual agreement requiring the promotion or display of corporate logos marketing foods or beverages not in compliance with USDA Smart Snacks in School nutrition standards.**

### **III. Physical Activity**

Children and adolescents should participate in at least 60 minutes of physical activity every day.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason. This does not include participation on sports teams that have specific academic

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

### ***Physical Education***

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive physical education each week throughout the school year.

All District **secondary students** (junior high and high school) are required meet the minimum state PE/Health Education requirements

### ***Recess (Elementary)***

**Daily Recess.** All elementary school students will have at least 20 minutes a day of supervised recess, preferably outdoors, during which schools should encourage moderate to vigorous physical activity verbally and through the provision of space and equipment

Schools should discourage extended periods (*i.e.*, periods of two or more hours) of inactivity. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

**Physical Activity Opportunities Before and After School.** When possible, elementary, middle, and high schools will offer extracurricular physical activity programs, such as physical activity clubs, or open gyms. All high schools, and middle schools as appropriate, will offer interscholastic sports programs. Schools will offer a range of activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

After-school child care and enrichment programs will provide and encourage – verbally and through the provision of space, equipment, and activities – daily periods of moderate to vigorous physical activity for all participants

**Physical Activity and Punishment.** Teachers and other school and community personnel will not use physical activity (*e.g.*, running laps, pushups) or withhold opportunities for physical activity (*e.g.*, recess, physical education) as punishment.
